

Vamos Theatre Environmental Action Plan 2022-25

Summary

- At Vamos Theatre, we believe we must all step up and make changes, however challenging they may be, so that we can live happy, healthy lives within the limits of the planet, leaving space for the natural world.
- In response to the Climate Emergency, we have created a three-stage Environmental Action Plan (2022-25), based on the One Planet Living Framework.
- Its creation is supported by Julia's Bicycle, the Theatre Green Book, Arts Council England and One Planet Living.

REDUCING WASTE

We are weighing and reducing our waste sent to landfill

- One Planet Living is a sustainability framework comprising ten principles that cover all aspects of social, environmental and economic sustainability.
- The Plan has been created with input from the whole Vamos Theatre team.
- Year One of our Action Plan focuses on four One Planet Living principles: Zero Waste; Equity, Culture and Local Community; Materials and Products; Health and Happiness; and planning for future years.

SUPPORTING OUR LOCAL COMMUNITY

We're using locally sourced, vegan food at Vamos Theatre events

- In the following years, we will expand our aims to include Travel and Transport; Land and Nature; Water and Food Sustainability; and Zero Carbon.
- Throughout each stage of the Plan, we'll be sharing our actions and ideas with audiences, community and supporters, and listening to feedback.
- Over the three years of the Action Plan, we aim to significantly reduce the impact of our activities, whilst retaining the cultural and social value of our work.

REDUCING PLASTIC

100% of mask sets are sent using re-used/recycled packaging materials
