THEATRE

WANT TO TEACH MASK THEATRE AND DEVISING?

Vamos Theatre is the UK's leading full mask theatre company and we've been sharing our skills with schools, special schools, colleges and universities since 2006.

Alongside our workshops for students, we offer teachers and educators the chance to gain the skills they need to use devising, mask and physical theatre in their own teaching.

WANT TO TEACH MASK THEATRE AND DEVISING?

MASK MASTERCLASS FOR TEACHERS AND EDUCATORS

Vamos Theatre's Mask Masterclass is an energetic and creative full mask workshop, suitable for teachers and educators at any level, and no previous mask experience is needed. The course, which can last from 2 hours to a full day, covers essential techniques of mask and devising, including characterisation, physicality, devising from stimulus and group work. By the end of the workshop, we aim for participants to have grown in confidence and be able to take their new skills straight back into the classroom. The Masterclass can be booked by schools, or participants can attend one hosted by Vamos Theatre.

The highlights...

- Increased confidence in teaching mask and devising
- New games and exercises to use in your teaching
- An understanding of the essential techniques of full mask
- A deeper understanding of how to direct others in mask
- Familiarity with guiding students through the devising process

RESOURCES

All our Masterclass participants benefit from extra on-line resources, including a comprehensive Mask Resource Pack, and access to complete performance films.

Most of our workshops can be led by a deaf practitioner: just let us know.
